

# Calculate the amount of cartridges for your application in 4 easy steps!

Diameter threaded rod:

mm

1

Drill diameter:

mm

Depth of drilled hole:

mm

2

Volume per drilled hole:

mL

Amount of holes:

pcs

3

Cartridges needed:

pcs

Choose mortar type:

mL

4

! Be aware that the calculation is an estimation. In the final result a safety multiplier of 1,1x has been implemented.
